# LITON® THE COMPLETE LIGHTING SOLUTION

LITON LED LIGHTING SOLUTION FOR CORPORATE & EDUCATION

## Corporate

As corporations worldwide become increasingly aware of the cost of energy and its effect on their bottom line, they demand solutions. Research shows that almost 30% of their energy budget goes towards the use and maintenance of inefficient lighting systems. Liton's versatile LED fixtures enhance efficiency, insure sustainability and provide the warmth and beauty of traditional lighting sources. Easily integrated into new lighting plans or existing remodel and retrofit projects, Liton LED fixtures can provide a productive and comfortable environment while generating substantial savings in overall energy costs.

### Corporate Projects (Liton LED)

Boeing Bldg. 42  
Blue Cross/Blue Shield

GE Transportation  
Goodyear HQ  
Google HQ

Lockheed Martin  
Northrop Grumman  
Safeco Plaza

Time Warner  
Union Bank

Well Fargo Tower  
Uber Headquarters

## Education

Whether a single classroom or a sprawling campus with several buildings, the learning institution must provide a well-lit but inviting environment. Energy cost containment may be important but the conservation of energy cannot come at the expense of learning. Liton LED fixtures offer many options such as color temperature, CRI, dimming, beams spread and adjustability which allows the customization of the lighting aspects of the classroom. This enhances the learning environment - all while realizing a significant reduction in energy consumption.

# LITON® THE COMPLETE LIGHTING SOLUTION

LITON LED LIGHTING SOLUTION FOR ENTERTAINMENT & RETAIL

## ▶ Entertainment

Whether large venue or small, nightclub or health club, hall, theater or arena, Liton LED has the variety and options necessary to light all or part of any entertainment facility and maximize energy savings. Imagine a movie theater using Liton LED downlights to light the lobby. How about using LinkaLED Bar, Tape or Puck lights to entice hungry customers to the concession stand? What about using Liton's LED rope light to safely guide employees and patrons to seats, restrooms and, more importantly, a clearly marked exit? And what about those restrooms? Liton has the LED products necessary for that need and almost any other. It's amazing to think that we were only discussing a movie theater. When you think of all of the different LED downlights, track heads, undercabinet and safety products that Liton produces, the possibilities are mind-boggling.

### Entertainment Projects (Liton LED)

Austin ISD Performing Arts Ctr.  
Ed Smith Stadium  
Food Network (Kitchen)

Hard Rock Casino  
Landmark Theaters  
Malco Theaters

Paradise Casino  
Sea World  
Universal Studios

## Retail

All retail establishments are designed with one goal in mind: to merchandise product so that it sells quickly. Proper lighting plays an essential role in that process. A properly lit store will highlight product and displays, illuminate consumer pathways, give direction to key departments or facilities including check out and provide real and perceived security. Studies show that good lighting reduces shrinkage from theft and damage. Liton Lighting provides LED lighting fixtures for any retail environment. Finally, retailers work on very thin margins. Even the cost of lighting is figured into the cost of goods. Liton LED lighting can save as much as 25% in annual energy costs over inefficient lighting.

# LITON® THE COMPLETE LIGHTING SOLUTION

LITON LED LIGHTING SOLUTION FOR HOSPITALITY & RESTAURANTS

## ► Hospitality

Warmth. Comfort. Elegance. The goal of the host is to make guests feel comfortable and want to come back. A wide range of small aperture LED downlights and task lights from Liton can help to set a welcoming tone for guests – whether they've come to work, play, sleep, dine or simply relax. With no sacrifice to physical comfort or visual elegance, Liton's commitment to LED innovation delivers significant energy savings and an enhanced guest experience.

### Hospitality Projects (Liton LED)

# LITON® THE COMPLETE LIGHTING SOLUTION

LITON LED LIGHTING SOLUTION FOR GOVERNMENT & HEALTHCARE

## ▶ Government

Ever heard of the \$1000 ashtray? Yes, the government has had a way of wasting hard-earned taxpayer dollars. But 'we the people' have complained and, remarkably, they have listened. Government facilities must now achieve a 30% reduction in energy consumption based upon 2003 levels according to Executive Order 13423. By choosing Liton LED solutions you can achieve an overall 23% reduction in lighting costs alone. Not a bad start towards energy independence.

### Government Projects (Liton LED)

42nd Military Police Barracks  
Brighton City Hall  
City of Creve Coeur

City of Gothenburg (Public Works)  
City of Reno  
Detroit Metro Airport

Erie County Convention Center  
ESSE Museum  
Fed. Reserve Bank of Kansas City

Minot Air Force Base  
Tehachapi Police Department

## Healthcare

Research shows that environment is an important part of patient treatment and recovery. Old-fashioned, inefficient CFL and incandescent lighting can create a depressing visual experience that affects patients and caregivers alike. Liton LED lighting fixtures are a powerful way to support the lighting design goals that are important to healthcare facilities. It improves the patient experience, enhances staff performance and, helps to reduce health care costs by reducing energy consumption.

### Healthcare Projects (Liton LED)

Sacred Heart Hospital  
Sarasota Memorial Hospital

Savage Medical  
Seven Seas Pediatric Dentistry  
Vanderbilt-Ingram Cancer Ctr.

# LITON® THE COMPLETE LIGHTING SOLUTION

LITON LED LIGHTING SOLUTION FOR RESIDENTIAL & HOUSE OF WORSHIP

## ► Residential

As residential customers experience skyrocketing electricity rates, they have begun to count every single kilowatt. Porch lights are left off. They squint in darkened rooms trying to conserve every bit of energy they can. They scour their abodes seeking out every device that consumes a scintilla of phantom power. Selling a residence? Lighting is now an issue. Building a residence? Lighting is in the plans. Buying a residence: Lighting is a consideration. Previously, the only energy efficient solution was CFL, a compromise by any measure. Liton LED lighting fixtures provide outstanding energy efficiency but also provide all of

the advantages of traditional technologies including adjustability, beam spread control, dimming and more apertures than competing brands or lamping technologies. Liton LED fixtures can be price competitive as well with models in every price range.

## House of Worship

Whether church or synagogue, cathedral, mosque or temple – houses of worship present unique challenges for lighting design. Congregants, clergy, staff and visitors come to these spaces with individual needs and expectations. Many of these facilities are multi-purpose and may have different lighting requirements for different functions.

Architectural features, artwork, statuary, altars and other important furnishings may need special lighting. All of these situations present challenges easily met using Liton LED lighting.

Need adjustability in a recessed LED downlight? How about fine beams spread control? Will dimming help to set the atmosphere?

What about an LED track head that matches all of the characteristics of your downlights? Liton LED meets all of those requirements and more.

## House of Worship Projects (Liton LED)

Destiny Worship Center  
First United Methodist Church of Warren

Greenwood Episcopal Church  
St. Patricks Church

Sun Prairie United Methodist Church  
Temple Israel

## Specialty Retail : Auto

Auto dealerships look for a visual edge over their competition when showcasing new models in their showrooms. Only the top-of-the-line, most fully-featured models are awarded that valuable real estate. Vehicles are polished and presented in a manner that justifies their cost and whets the appetite of the consumer. In the past, the lighting technology of choice was HID, known for intense color rendition and lots of sparkle. The downside was the finicky nature of that technology, the inability to dim metal halide lamps and the intense heat generated. Now LITON LED, with its high lumen output, choice of CCT and high CRI values, eliminates the downsides of HID and provides comparable output, consistent color rendering, better energy efficiency and lots of sparkle.

## FOUR GREAT REASONS TO CHOOSE UNIDIM™

- 1 AVOID EXPENSIVE REWIRING**  
UniDim™ works with Incandescent/ Triac, 0-10V and ELV Dimmers.
- 2 AVOID DIMMER COMPATIBILITY ISSUES**  
UniDim™ is compatible with Lutron, Leviton and most popular dimmer systems.
- 3 SMOOTH FLICKER-FREE COMPATIBILITY**  
UniDim™ delivers smooth, incandescent-like dimming performance from ELV, 0-10V, and 120V dimming systems.
- 4 REDUCE INVENTORY**  
UniDim™ is available on all Lutron Gen2 Architectural LED and MiniArc LED housings.

## WIRING DIAGRAM

**STOCK OR SPECIFY  
JUST ONE LED HOUSING  
TO HANDLE MOST  
LED DIMMERS!**

## REDUCE INVENTORY AND FIXTURE VARIETY

Distributors supplying new construction projects can now purchase and warehouse just one product to accommodate several different projects. Specifiers can now use just one product to satisfy all the needs of a project regardless of existing or planned wiring or lighting control systems.
