**Application:** These narrow aperture beams allow a defined location to be lit without affecting the surrounding surfaces while concealing the lamp image and providing a consistent ceiling appearance. The smaller the aperture the more confined the illumination. **Pinhole** trims provide the type of precise illumination needed for artwork such as paintings and statues. They are also ideal for cozy environments like restaurants and living spaces where glare-free illumination is desired. Aside from accent lighting, they can also be utilized for task lighting applications such as above tables, workspace, cabinetry, and other locations where a directed beam is desired.

**Gasket:** Supplied with gasket to prevent light leakage and unsightly heat streaks on ceiling surface.

**Lens Inclusion:** Clear glass protective safety lens included in packaging.

**Mounting** Steel pressure springs mounted on trim to ensure positive retention inside housing.

**Baffle Finish \*:** Molded baffle ridges eliminate stray light. Available in White, Black and All Mocha.
