OUTDOOR EXIT SIGN

# INDOOR/OUTDOOR EXIT SIGNS AND **EMERGENCY** LIGHTING

The ever-growing collections of **Liton** Lighting is the best source for the latest technological breakthrough in lighting.

This includes emergency lighting and exit signs.  
Liton Lighting is here to provide the customers with the most advanced emergency lighting and exit signs.

The LED heavy-duty outdoor, and LED die-cast metal construction exit signs, as well as the remote-capable emergency lighting system set a new standard in the lighting industry.

**Liton's emergency** systems include architectural exit signs, all condition exit signs and hazardous location products. All Liton Lighting's emergency lights and exit signs have been designed, engineered & manufactured with the highest quality.

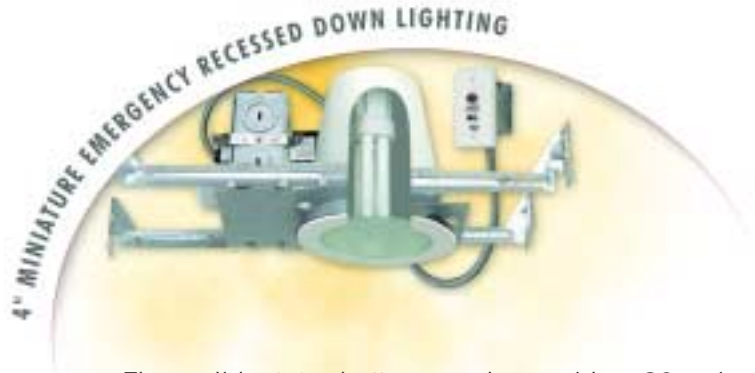

**LITON**  
LIGHTING

# INDOOR/OUTDOOR EXIT SIGNS AND **EMERGENCY** LIGHTING

**Liton's** full line of fluorescent emergency downlights (4", 5", 6", 8" and 10") are both functional as well as decorative. Equipped with a PEM series battery back up, these downlights can be used with most 7W-42W fluorescent lamps including the 4-pin electronic compact fluorescent.

Available 120-277V.

The solid state battery pack provides 90 minutes emergency lighting when AC power fails.

The emergency ballasts are UL listed.

Liton's recessed emergency are also available for 3", 4", and 6" low voltage applications.

The recessed design eliminates unsightly surface units while maintaining the integrity of the existing space and meeting all National Electrical and Life Safety Codes.

The

# PEM

s e r i e s

Compact fluorescent applications:

## convert an existing fixture

## into an emergency fixture

Cat#	Lamp(s)	Voltage
PEM13	(1)9W, (2)9W, (1)13W, (2)13W	120/277V
PEM26	(1)18W, (2)18W, (1)26W, (2)26W	120/277V
PEM42	(1)32W-42W, (2)13W-26W 4pin PL	120/277V

Liton's emergency retrofit kit makes it easy to convert any existing fixture into an emergency fixture.

The PEM series can be used with most 7 Watt through 42 Watt fluorescent lamps, including the 4-pin. Available in 120V - 277V UL listed.

### LOW WATT C.F.

**Twin Tube:**  
The original compact lamp permits ultra-shallow recessed fixtures and can be driven by PowerSpec LFI electronics.

WATTS	CATALOG NUMBER	BASE	RATED LIFE (HOURS)	RATED LUMENS	PINS	EFFICACY (LPW)

AC ONLY UNIT

## L.E.D. EXIT SIGN

### APPLICATIONS

Commercial, retail and industrial facilities that require AC only or battery backup emergency exit lighting signage. Owners of such properties with high utility rates and are looking to save on electricity consumption.

### FEATURES

- Compact, low profile design in off-white finish.
- LED 120/277V Exit sign for economy applications with battery backup. LED lamp life is 25 years.
- Double or single face configuration.
- Single blank face plate included for single face applications.
- 6" letters with high color diffuser panel.
- Very energy efficient (Less than 2 watts for red letters and less than 1 watt for green letters).
- Completely self-contained. Installs in minutes with only a screwdriver.
- Universal mounting canopy for end, top, or back mount installations. Consult factory.
- Injection molded, V-5 flame retardant, high impact, thermoplastic housing.
- Easily removable/re-attachable (snap-out) arrow covers to point direction(s).
- Nickel Cadmium battery. 90 minutes battery back-up capacity.
- Available in 1-circuit or 2-circuit configurations (LX850 model only).
- Dual Voltage AC 120V/277V.
- UL/ETL listed.

### OPERATION

Unit is constantly illuminated by normal AC power. Whenever normal AC current fails, the internal solid state transfer switch automatically connects the internal battery to the LED lamps inside the exit sign to keep it continuously lighted for **90 minutes**. When the AC power is restored, the battery is recharged by the on board solid state recharger the process will be completed within 12 hours.

### WARRANTY

The fixture and internal battery carry a warranty for a period of one year to be free from defective material and workmanship.

# die-cast construction L.E.D. exit signs

## SELF ILLUMINATING DIE-CAST EXIT SIGN

### APPLICATIONS

Commercial, retail and industrial facilities that require no AC or battery backup emergency exit lighting signage. This self illuminating exit sign system will glow during complete electrical blackouts

### FEATURES

- Self Illuminating **green** letters only
- No wiring is needed
- Approved for low level applications
- Explosion proof
- Die-cast construction
- 25 years of life expectancy

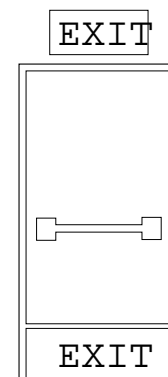

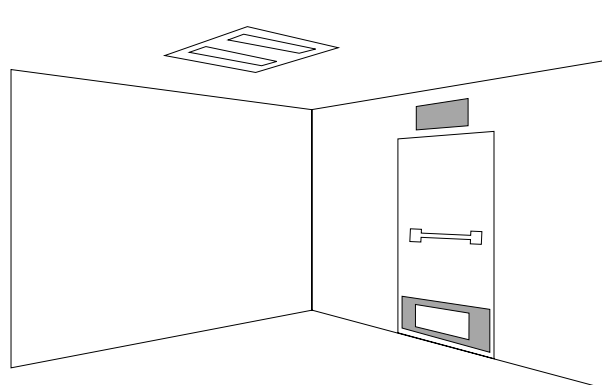

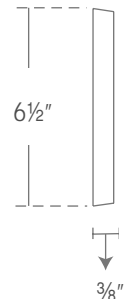

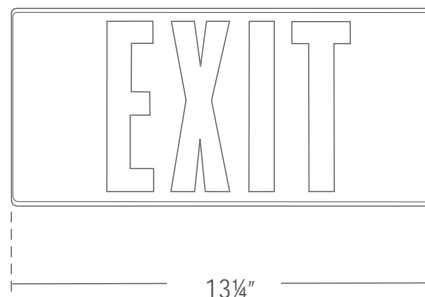

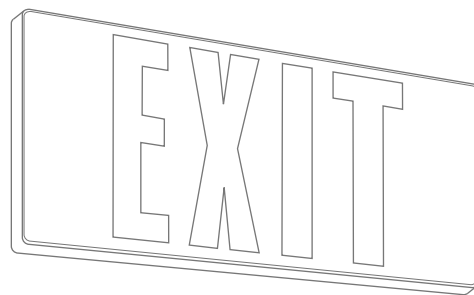

### When catastrophe strikes, our self illuminating system shines.

During complete blackouts caused by power failures through earthquakes, fires, or storms, it will glow to guide you to a nearby exit.

**The economical** unit does not utilize power, thus no wiring is required.

**The maintenance-free** unit does not contain lamp or battery backup so you don't have to worry about their replacement, or whether or not the battery is charged.

**The durable** unit is made out of aluminum with a special non toxic, non radioactive self illuminating powder coat finish with a life expectancy of 25 years.

## TRITIUM SELF ILLUMINATING EXIT SIGN

### APPLICATIONS

Commercial, retail and industrial facilities that require no AC or battery backup emergency exit lighting signage.

This self illuminating exit sign system will glow during complete electrical blackouts

### FEATURES

- Tritium filled gas tubes.
- Available in green/red background with black frame. Example: LXS90G (green) ; LXS90R (red).
- Completely sealed housing.
- Universal directional indicators and mounting canopy included.
- Easy installation (no wires).
- Explosion-proof/hazardous location. Suitable for damp locations.
- 10 or 20 year total customer warranty (varies with option chosen).
- UL/ETL listed.

# low voltage recessed **emergency** lighting

Liton's new 3", 4" and 6" low voltage recessed emergency lighting is designed to be aesthetically pleasing and unobtrusive allowing the existing 3", 4" or 6" lighting design to conform with the emergency lighting system.

three  
3inch

Liton's emergency systems include architectural exit signs, all condition exit signs and hazardous location products.

All Liton Lighting's emergency lights and exit signs have been designed, engineered and manufactured with the highest quality.

These emergency fixtures are completely self-contained using one MR16 10W, 6V lamp. The 6V premium battery is maintenance free. Each unit has an LED indicator light with a test switch feature. When the power is interrupted these units will light and remain on for 90 minutes.

four  
4inch

**LAMP INCLUDED WITH EACH UNIT**  
TO ORDER A SPARE/REPLACEMENT USE CATALOG# **MR16-10**

six  
6inch

The units pictured above in 3" and 4" low voltage emergency are for new construction only. The 6" low voltage emergency is available for both remodeling and new construction. For colors, styles and trim capabilities, please consult factory.

Liton's low voltage emergency systems are ETL approved, meeting all standard safety requirements.

# 3inch low voltage emergency

## LHEM3 : 3" EMERGENCY THERMALLY PROTECTED LOW VOLTAGE IC HOUSING

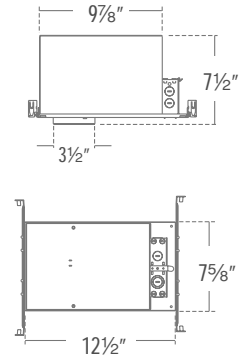

Lamp(s)	Ceiling Cut Out	Height
10W 6V	3¾"	7½"

Available in 277V. Add "27" to Cat #.

### features:

- Direct contact with insulation.
- 24" bar hangers.
- Junction box is listed for through branch circuit wiring [4 in - 4 out] and has ½" and ¾" knock-outs.
- For both IC / Non-IC applications.
- ETL listed for feed through, damp location and direct contact with insulation.
- Lamp included.
