

LR376 - ADJUSTABLE BAFFLE 6" LINE VOLTAGE TRIMS

SPECIFICATION

120V 75W Max PAR30 MED E26

Application: Standard in residential adjustable illumination, the **gimbal** style trims provides flexibility and versatility from a single rotary axis. They double as both a downlight and as an accent light. They are an economical way to provide general and accent lighting with both vertical and horizontal aiming capabilities. Their large degrees of rotation result in both streamlined style and practical ergonomics. **PAR30** gimbals offer a smaller opening aperture, as well as a more controlled light beam for accenting objects. **Regressed** gimbal design conveniently helps shield lamp glare from surrounding environment.

Mounting: Steel pressure springs mounted on trim to ensure positive retention inside housing.

Baffle Finish: Die-formed aluminum baffle ridges eliminate stray light. Available in White, Black and All Natural*.

Ring Finish: Die-Formed Aluminum Trim Ring Available in White, Black, Chrome, Gold, Natural, Copper and Mocha.
