

LR934 - PINHOLE W/ BAFFLE 4" LINE VOLTAGE TRIMS

2 1/8"

5"

SPECIFICATION

120V 50W Max R20/PAR20 MED E26

Application: This trim allows a defined location to be lit without affecting the surrounding surfaces while concealing the lamp image and providing a consistent ceiling appearance. The smaller the aperture the more confined the illumination.

Pinhole trims provide the type of precise illumination needed for artwork such as paintings and statues. They are also ideal for cozy environments like restaurants and living spaces where glare-free illumination is desired.

Aside from accent lighting, they can also be utilized for task lighting applications such as above tables, workspace, cabinetry, and other locations where a directed beam is desired.

Gasket: Supplied with gasket to prevent light leakage and unsightly heat streaks on ceiling surface.

Mounting: Steel pressure springs mounted on trim to ensure positive retention inside housing.

Baffle Finish: Die-formed aluminum baffle ridges eliminate stray light. Available in White, Black, All Natural* and All Copper*.

Ring Finish: Die-Formed Aluminum Trim Ring Available in White, Black, Natural, Copper and Mocha.

Label: UL Listed, cETL Listed
