

Two-Circuit Track Layout Components

TRACK ACCESSORIES - TWO CIRCUIT / 1 NEUTRAL

Flexible Connector

Joins two track channels at any angle.
Up to 85 degrees vertically or horizontally
May be used as an electric feed point.

Ordering:

LPC902W White
LPC902B Black

Straight Connector

Joins two track channels in a straight line.
May be used as an electric feed point.

Ordering:

LPC903W White
LPC903B Black
LPC903S Satin Gray

T-Connector

Joins three track channels in a perpendicular fashion.
May be used as an electric feed point.

Ordering:

LPC905W White
LPC905B Black
LPC905S Satin Gray

L-Connector

Joins two track channels in a perpendicular fashion.
May be used as an electric feed point.

Ordering:

LPC943W White
LPC943B Black
LPC943S Satin Gray

X-Connector

Joins four track channels in a perpendicular fashion.
May be used as an electric feed point.

Ordering:

LPC946W White
LPC946B Black
LPC946S Satin Gray

Mini Connector

Joins to track channels end to end.

Ordering:

LPC949W White
LPC949B Black
LPC949S Satin Gray

Conduit Continuation Kit

Allows for continuation of a run with conduit.

Ordering:

LPC989W White
LPC989B Black
LPC989S Satin Gray

Track Adapter

Allows for continuation of a run with conduit.

Ordering:

SPA002W White
SPA002B Black
